TAP Phase one

First meeting of the STEERING COMMITTEE

27 May 2011

1. Welcome

The Commission regulation (EU) no454/2011 on TAP TSI was adopted on 5 May 2011 and published on 12 May 2011. This was the first meeting of the steering committee for phase one, held in Commission premises.

The Commission co-chairperson recalled that the implementation of TAP TSI was very important for VP Kallas. This importance is confirmed in the transport white paper (http://ec.europa.eu/transport/strategies/2011_white_paper_en.htm). He highlighted the fact that telematics applications were identified in 2001. 10 years after, work can start.

2. Introduction - Tour de table

The committee members introduced themselves.

Committee members represented CER, EIM, EPF, ERA, ETTSA, UITP, UNIFE. ECTAA attended also as observer.

3. Nomination of the co-chairperson

The rail sector representatives elected the sector co-chairperson: the CER representative Libor Lochman.

4. State of play

The Commission services recalled the tasks of "phase one" of the implementation: Phase one has three objectives

- To define the data exchange system (hereinafter referred to as "the system") consisting of common components and of the interconnection of information and communication systems of stakeholders able to fulfil the requirements of this Regulation.
- To confirm such a system from the viewpoint of technical and economic feasibility.
- To draw up a roadmap of the activities deemed necessary in order to implement the system, including appropriate milestones for the monitoring of the progress of its implementation by the Commission, the European Railway Agency, the Member States and the stakeholders concerned.

Deliverables are:

- The detailed IT specifications shall describe the system and shall indicate in a clear and unambiguous manner how the system fulfils the requirements of the TAP TSI.

- The development of such specifications requires a systematic analysis of the relevant technical, operational, economic and institutional issues that underpin the process of implementing the TAP TSI.

Deliverables

- Functional, technical and performance specifications, the associated data, the interface requirements, the security and the quality requirements.
- The outline of the global architecture of the system.
- Master plan
- governance

Milestones are:

- At the kick-off meeting with the project team (SC2)
 - o a project description and
 - o a project work programme including a timetable.
- At the kick-off meeting, the content and level of detail
 - o of the intermediate report and
 - o of the monthly progress report
- Kick-off+5 months,
 - o intermediate report
- Kick-off+10 months
 - o deliverables
- 2 months after
 - o ERA recommendation on deliverables

CER presented in broad terms the project to be launched (CER being the leader of it).

CER is prepared to make TAP TSI a success for passengers and the rail industry at large

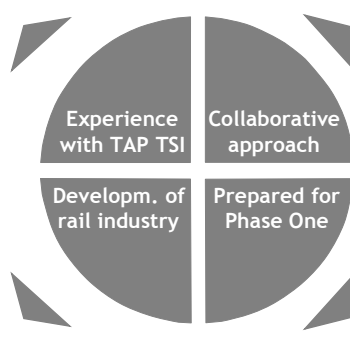

Deeply involved

- Since 2006, significant resource investments to support legislation
- Triggered multiple RU initiatives to support the goals of TAP TSI
- Thorough understanding/ in-dept knowledge of market dynamics

Collaborative

- Joint bid for EC funding with ticket vendors
- Specific work stream to address ticket vendor needs
- Committed to a transparent project in full respect of stakeholders' aspirations

Customer-focussed

- CER members are very experienced in successfully responding to customer needs
- In-depth knowledge of the opportunities for, and challenges of, continuously improving and innovating

Ready to kick-off

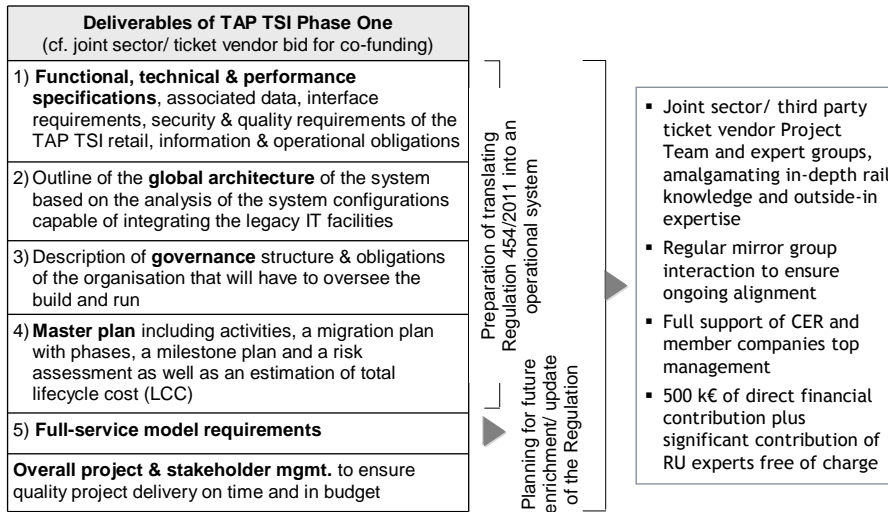

- Experienced team with relevant skills set and full industry support
- Sector share of project funding secured
- CER members aware of relevance of TAP TSI
- Aligned with sector partner organisations

The 79 CER member companies and several dozens of their subsidiaries service > 35.000 stations, managing well over 600,000,000 standard fare combinations and transporting more passengers per day than airlines per year.

The joint sector/ ticket vendor bid to receive DG MOVE co-funding promises good value for money

The Voice of European Railways

3

CER

5. Common vision on the role/mission of the steering committee

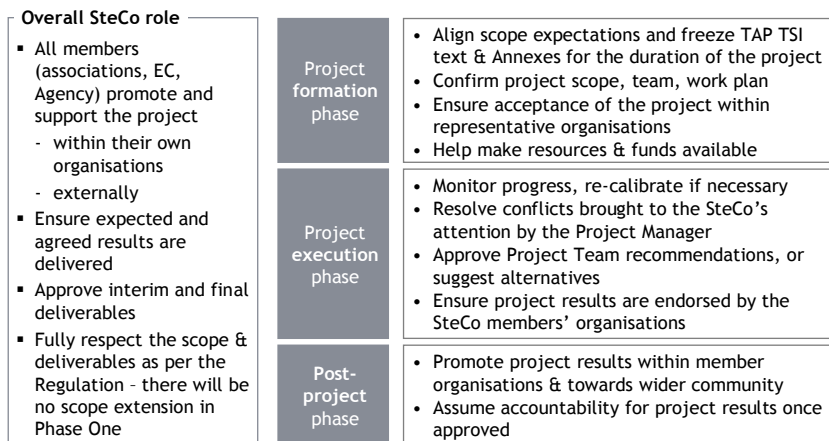

The committee members shared their view on the mission of the steering committee.

CER:

The Steering Committee has a crucial role to ensure Phase One success

The Voice of European Railways

4

CER

UITP:

TAP TSI Getting the balance right

- UITP supports all initiatives that
 - bring benefits desired by customers and
 - will encourage more people to use public transport
 - support the development of the European Rail Markets

TAP TSI has the potential to do this!

27 May 2011

UITP shared their concerns on unintended consequences of detailed specifications for TAP TSI.

TAP TSI Getting the balance right

- Potential areas for concern regarding suburban and regional transport
 - Mandatory application of TAP TSI for suburban and regional systems running on TEN networks is inappropriate
 - (e.g. functional differences between urban of the system requirements, integration with other modes)
 - Domains in TAP TSI
 - Must be customer-focused: Tickets, customer information
 - Exchange of data between infrastructure and vehicle is not relevant for the customer
 - Market barrier to entry for new railway undertaking (cost)

27 May 2011

It was agreed to that Commission would clarify at a next meeting the distinction between TAP/interop directive, and the passengers' rights regulation.

EPF:

Role of the steering committee

- Monitor progress (with the progress reports)
- Monitor the results/deliverables (on the basis of ERA recommendations)

ETTSA:

The steering committee shall keep a broad view on the project and should not discuss too many details. It should ensure a mutual understanding.

EIM:

The steering committee should be a navigation and coordination tool.

It should pave the way for the future phases.

Experience of TAF should be taken into account.

It should ensure that we move toward something achievable.

Commission:

The mission of the steering committee shall be attached to its political context. TAP is one implementation of the strategy expressed in the transport white paper,

A mission statement document of 1-2 pages based on these ideas and on the white paper will be drafted.

The sector co-chair stated that we should not mix long-term (white paper) and short-term mission (phase one).

6. Discussion on the rule of procedures of the steering committee

The draft rules of procedures of the steering committee were discussed. The document will be updated and will be submitted for approval at next meeting.

6bis. Observers

ETTSA, supported by the Commission, proposed that ECTAA (present at the first meeting) is an observer. A justification was sent before the meeting.

CER, supported by UITP, proposed that UIC becomes an observer. They will submit a justification.

UITP proposed that EPTO becomes an observer. They will submit a justification.

The steering committee accepted the proposals.

7. Next meeting

Next meeting will be held on 8 July, 10:00-16:00.

It will be the kick-off meeting with the project team.

Following items will be included in the agenda:

- Draft rules of procedures
- Mission statement of the steering committee
- project description
- project work programme including a timetable
- content and level of detail of the intermediate report
- content and level of detail of the monthly progress report

8. AOB

EPF requested information on the possibilities to support their travel expenses. The Commission services explained that so far they had been unsuccessful, but would try to find a solution.

Annex 1: Actions

Action number	description	Actor	deadline	status
1	Bilateral meeting between co-chairpersons to agree on - organisational aspects - agenda of SC2	EC(co-chairperson) CER (co-chairperson)	Before 23/06/12	
2	Send invitation and agenda	EC (secretary)	24/06/12	
3	Send all the documents to the steering committee members - updated draft rules of procedures - draft mission statement - project description - project work programme	EC (secretary)	01/07/12	

	<p>including a timetable</p> <ul style="list-style-type: none"> – content and level of detail of the intermediate report – content and level of detail of the monthly progress report – others if any 			
4	clarification of the distinction between TAP/interop directive, and the passengers' rights regulation.	EC	at a next meeting	
5	<p>Send to the co-chairpersons</p> <ul style="list-style-type: none"> – project description – project work programme including a timetable – content and level of detail of the intermediate report – content and level of detail of the monthly progress report 	Project team Manager	23/06/12	
6	Justification of UIC & EPTO as observers + CV of representatives	CER, UITP	Before 23/06/12	
7	Nomination of alternates	all	Before 23/06/12	

Annex 2: attendees

CER (co-chair)	Libor Lochman
----------------	---------------

EC (co-chair)	Patrizio Grillo
EC (secretary)	Isabelle Vandoorne
ECTAA (observer)	Robert Edward Parkinson
EIM	Michael Purcell
EPF	Rian van der Borgt
ERA	Mickael Varga
ETTSA	Hans Egon Jorgensen
UITP	Sarah Kendall
UNIFE	Eric Fontanel replaced today by Andreas Von Wullerstorff

Annex 3: calendar

TAP SC 1	27 May 11
TAP SC2 – kick-off meeting with the project director	8 July 11
TAP SC3 – follow-up	
TAP SC 4 – interim deliverables	Before 8 December 11
TAP SC 5 – follow-up	
TAP SC 6 – final deliverables	Before 13 May 12
