Level of detail of master plan

Jour Fixe TAP Phase One PM –ERA Oct. 2011
Reminder for the TAP Phase One project management about the TSI
What Phase One Project Team can do / TAP TSI is law! /
TAP Phase One Masterplan
Content of master plan
Master plan should describe clearly and transparently for the RU, IM or TV what it should implement in which sequence and condition in order to achieve the target system of TAP.

While drafting the master plan please put yourself into the shoes of the RU, IM or TV who wants (or has to) implement and understand without PM/ERA the provisions of TAP TSI!
Detail of Masterplan TAP
Phase One - questions to be answered during drafting

BP 4.2.1: Target: Timetables must be made available

- To whom do I have deliver TT?
  - Could this be an entity?
  - Is delivery a "push" or a "pull"?

- What is frequency of TT delivery?

- What to do in case of planned deviations in TTs?

- From which date do I have to be ready to be B.4 compliant?
  - What to do if I cannot be B.4 compliant?
  - Do I have to coordinate my implementation with that of the other RUs? What is the migration plan?

- When do I have to deliver and to whom underpinning reference data?

- How do I contribute financially to TT data storage?
  - Which parts of the TT data exchange must be funded?
  - Is there a funding share key?
    - for development
    - for operation
  - How can I join as latecomer?

- How can I change the content of B.4?

- Which entity will govern the common parts of TT exchange?
  - What is my right or obligation to participate in this entity?
  - Who will develop common parts and when?
  - Who will operate common parts and when/how long?

BP 4.2.2: Target: Tariffs must be made available _ (etc)
